**PRELIMINARY AMENDMENT**

Prior to the examination of the above application, please amend this application as follows:

**IN THE CLAIMS:**

Please cancel claims 28-53, and add claims 54-69 as follows:

54. A method in a data processing system having a group of associated objects, the method comprising:  
receiving from a remote source a request to access one of the objects of the group of objects;  
determining whether the requested object is active;
